TOTAL QUOTE 6,011.00
October 22, 2019

Dear Board of Education:

The Marion County Technical Center would like to request to purchase a dishwasher with a 3M water filtration system and replacement cartridge. The price of these items are as follows:

Dishwasher-- $6,499.00

Water Filtration System-- $180.20

Replacement Cartridge-- $58.60

The total cost is $6,737.80 and will be purchased using the Perkins WVDE Grant. There are three quotes attached to this letter. The dishwasher and accessories from Central Restaurant Products was selected, as it was the lowest price of the three quotes.

Thank you for reviewing our request. If you need anything further, please contact me at (304) 986-3590.

Sincerely,

[Signature]

Ray Frazier

MCTC Principal

By signing above you are agreeing all product and totals are accurate. If purchase is to be made via credit card, signature by cardholder is required indicating authorization to charge card and process order. All prices above are in US dollars. All payments to Central are required to be made in US dollars. ** Upon Receipt of your Merchandise ** Please inspect your delivery carefully. In the unfortunate event that something is damaged or has to be returned, please call your product consultant. Please save all shipping cartons and packaging. Claims must be reported within 5 days of receiving your delivery. All returns are subject to inspection before a credit is issued and may be assessed a restocking charge. Please return defective items promptly to avoid being charged for the replacement item. Custom manufactured, special orders and used items are not returnable.

*** Central is OPEN until 8:00 pm (Eastern Time) ***
Aqua-Pure® Models ICE120-S and ICE125-S single-cartridge water filtration systems provide consistent high-quality water for commercial icers and flakers by reducing the harmful effects of sediment and chlorine at flow rates to 1.5 gpm (5.7 lpm). Built-in scale inhibition reduces the ability of calcium and magnesium to precipitate on the evaporator plates as hard scale.

- **ICE120-S** combines cyst, sediment, chlorine taste and odor reduction while providing protection from the harmful effects of chlorine corrosion and scale for up to 9,000 gallons (34,069 liters).
- **ICE125-S** combines chlorine taste and odor reduction with sediment and scale reduction for higher turbidity water, and provides protection from the harmful effects of chlorine corrosion and scale for up to 10,000 gallons (37,854 liters).

**PRODUCT BENEFITS**

- Effectively reduces sediment and chlorine for equipment protection and cleaner, great-tasting ice.
- Certified by NSF to Standard 53 for cyst reduction (ICE120-S system).
- NSF Standard 42 and/or FDA CFR-21 compliance provides assurance of safety.
- Built-in scale inhibitor reduces lime scale build-up on evaporator plates as tested by CUNO.
- Patented* valve-in-head design simultaneously shuts off and vents water with 1/4 turn, allowing for simple and trouble-free cartridge change-outs.
- SQC – Sanitary Quick Change – encapsulated cartridge design allows for fast and easy change-outs with a 1/4 turn while minimizing the possibility of leakage and contamination.
- 3/8" FNPT horizontal inlet and outlet ports allow direct or easily adaptable connections to existing plumbing lines.
- Exhausted cartridges may be incinerated.

* U.S. Patent # 6,328,289
**Physical Specifications**

- System includes a head assembly with integral mounting bracket, pressure gauge, and a single cartridge filter.
- Inlet and outlet plumbing connections are 3/8" FNPT.
- System incorporates an internal automatic 1/4" turn shutoff valve.
- Filter cartridges are double o-ring seal type.
- System maximum operating pressure of 125 psi (862 kPa) and a maximum operating temperature of 100°F (38°C).
- Recommended service flow rate is up to 1.5 gpm (5.7 lpm).
- Filter cartridges incorporate carbon block media and scale inhibitor.
- System is NSF Standard 42 and/or CFR-21 compliant.
- Cartridge body is constructed from high-impact glass-filled polypropylene.
- Cartridges are sanitary in design, requiring no contact with the filter media during cartridge change-out.
- Filter cartridges require no pre-activation.
- A NSF Performance Data Sheet (PDS) is included.
- Shipping weight: 19 lbs (8.6 kg) per case
- Case quantity: 6

**Installation Tips**

- Shut off downstream equipment prior to installation of the system.
- Choose mounting location to support full system weight when operating.
- Do not exceed operating parameters for temperature or pressure.
- Do not install outdoors.
- For commercial use only.
- Install cold water line only.

Central Restaurant Products
STANDARD FEATURES
+ Racks per hour – Light 30 / Normal 24 / Heavy 13
+ .62 gallons of water per rack
+ Steam elimination and energy recovery
+ NSF certified pot and pan cycle on heavy cycle
+ Low chemical alert indicators
+ Integrated booster heater capable of 70°F rise
+ Chemical pump “auto-prime”
+ Advanced service diagnostics
+ Clogged wash arm sensing
+ Custom cycle selection – light, normal, heavy
+ Automated delime cycle – includes booster deliming
+ Deep drawn stainless steel tank
+ Top-mounted controls with advanced digital cycle/temperature display
+ Revolving upper and lower anti-clogging wash arms
+ Snap-in revolving upper and lower rinse arms
+ Removable stainless steel scrap screen
+ Corrosion resistant pump
+ Energy saver mode
+ Automatic pumped drain
+ 17” door opening
+ Dirty water indicator
+ Automatic fill
+ Detergent, rinse aid and delime pumps standard
+ Electric tank heat
+ Auto clean cycle washes down inside of machine at shutdown
+ Two drishacks – one peg and one combination type

OPTIONS & ACCESSORIES (Available at extra cost)
☐ Door lock (prevents door from opening until completion of cycle)
☐ Power cord kits
☐ 6” stainless steel base and legs
☐ 17” stainless steel stand with rack storage
☐ External caster kit
☐ DWT-Lxe drain water tempering kit – to comply with plumbing codes
☐ Water hammer kit
☐ Splash reduction panels
☐ Optional trim strip

SPECIFIER STATEMENT
Specified unit will be a NSF rated high temperature Advansys ventless undercounter dishwasher operating on a cold water supply only with steam elimination and energy recovery. Features three selectable 120, 146 and 275 second cycle times, .62 gallons per rack, LED temp and operator display, service diagnostics, NSF certified pot and pan mode, rinse aid and detergent pumps. Constructed of stainless steel.
1 year parts and labor warranty.

WARNING: Plumbing and electrical connections should be made by qualified personnel who will observe all the applicable plumbing, sanitary, safety codes and National Electrical Code.

Required flow pressure to the dishwasher is 15-65 PSIG. If pressures higher than 65 PSIG are present, a pressure regulating valve must be installed in the water line to the dishwasher (by others).

Pressure gauge not required on pumped rinse machines.

Subject: Quote

Per our conversation we are pleased to quote the following equipment for the subject job. This equipment is being offered for your consideration and is subject to approval.

**Commercial Gas Fired Water Heater**

A.O. Smith Model BTH-199 MX1 **CYCLONE** commercial high efficiency modulating gas fired water heater.

- 97% thermal efficient
- recovering 235 GPH @ 100 degree rise
- 100 gallon capacity
- vents using 3" PVC pipe
- spiral combustion chamber
- three year manufacture warranty
- foam insulation
- sealed combustion
- powered anode rods

**BTU input of 199,900**
- digital temperature display
- LED fault display capabilities
- horizontal, vertical or direct venting
- ASME T&P relief valve
- glass-lined tank
- solid state temperature & ignition control
- 100% fully automatic safety controls

**Your cost for the above equipment $5,410.00 each.**

Adder for prepaid freight charges $163.81

Thank you for the opportunity of quoting. If you have any questions please feel free to call.

Sincerely,

Mark Breier
